

Cycle B Snapshot:

Pediatric Preventive Care Measures:

Overweight Counseling and Adolescent Mental Health and/or Depression Screening

In an effort to communicate health care performance results as soon as they are finalized, MN Community Measurement is pleased to share with you now this brief summary of the Pediatric Preventive Care measure data that will later be published in the 2017 *Health Care Quality Report*, which is anticipated to be released in January 2018. This information can be used to aid decision making associated with quality improvement efforts.

Pediatric Preventive Care measures include:

- Overweight Counseling
- Adolescent Mental Health and/or Depression Screening

MEASURE RESULTS

Clinic and medical group level results are publicly reported on our consumer website, MNHealthScores.org. The site provides this information in convenient, sortable tables to view, download and/or print. Pediatric Preventive Care measure results are available on MNHealthScores via the following links:

- [Pediatric Preventive Care Measures – Medical Group Ratings](#)
- [Pediatric Preventive Care Measures – Clinic Ratings](#)

USEFUL PROVIDER AND PATIENT TOOLS

To help you interpret and use health care quality data effectively, MNMCM provides medical groups and clinics with tools to improve quality and reporting; detailed, medical-group specific reports; and patient education resources.

MNCM DATA PORTAL

On the MNMCM Data Portal, providers can find the following:

- Detailed reports and charts of clinical measure results
- Charts of specific clinical measure results segmented by race, Hispanic ethnicity, preferred language and country of origin (REL) for medical groups following best practices
- Patient Experience of Care Survey results at the domain and question-level

MNCM.ORG

On MNMCM's corporate website, the public can find the following resources:

- Public reports including the *Health Care Quality Report*, *Health Equity of Care Report*, *Health Care Disparities Report* and *Total Cost of Care Report*
- Provider tools and resources
- Monthly Q & A session details
- Educational webinars throughout the year
- Patient education and engagement resources
- Health Trackers

REL CHARTS AVAILABLE ONLINE

As noted above, REL charts for medical groups have been updated and are now available to providers on the MNMCM Data Portal. We invite you to take a moment to review the REL charts, particularly those for the Pediatric Preventive Care measures, and use them on a regular basis for your quality improvement efforts.

We appreciate the significant contributions of clinics, medical groups, health plans, hospitals and other professional organizations that provide data to MN Community Measurement. Achieving our mission to accelerate the improvement of health by publicly reporting health care information relies on this collaborative, multi-stakeholder effort. We strive to continue to be the trusted source for performance measurement, data sharing and public reporting locally and nationally.
